

Bilbao, 05/VII/2012

Congratulations to the awarded of the:

**FELIX KLEIN PRIZE OF THE EUROPEAN MATHEMATICAL
SOCIETY (EMS)**

**Emmanuel TRÉLAT (Université d'Orléans, Orleans, France and
BCAM Collaborator)**

Dr. [Emmanuel TRÉLAT](#), BCAM collaborator, awarded the Felix Klein Prize of the European Mathematical Society (EMS).

Emmanuel Trélat, 37 years old, obtained his PhD at the University of Bourgogne in 2000. Currently he is a full professor at the University Pierre et Marie Curie (Paris 6), France, and member of the Institut Universitaire de France, since 2011. He receives the Felix Klein Prize for combining truly impressive and beautiful contributions in fine fundamental mathematics to understand and solve new problems in control of PDE's and ODE's (continuous, discrete and mixed problems), and above all for his studies on singular trajectories, with remarkable numerical methods and algorithms able to provide solutions to many industrial problems in real time, with substantial impact especially in the area of astronautics.
