

Bilbao, 19/III/2012

Congratulations to the awarded of the:

HPC-EUROPA2 FELLOWSHIP

Elena Akhmatskaya (BCAM, Bilbao, Basque Country)

Dr. Elena Akhmatskaya - Group Leader of Mathematical Biology & Molecular Simulation line research at BCAM, and Research Professor, has been awarded an HPC-EUROPA2 fellowship funded by the European Union. The fellowship provides funds for an extended visit to the University of St Andrews <http://www.st-andrews.ac.uk/> and the Edinburgh Parallel Computing Centre (EPCC) <http://www.epcc.ed.ac.uk/> to work on the project Computational study of polymorphism in drugs and to gain access to one of the most advanced High Performance Computational facilities in Europe. The visit is believed to promote closer links between the University of St Andrews, the University of Edinburgh and BCAM in the field of parallel scientific computing.

HPC-EUROPA2 <http://www.hpc-europa.eu> is Pan-European Research Infrastructure on High Performance Computing. HPC-EUROPA2 is an EC-funded Transnational Access programme which offers European-based scientists an opportunity to travel to another country to work in collaboration with researchers in a similar field, while having access to most powerful computers in Europe.
