

Postdoctoral Fellow on Deep Data-Driven Computing

Job Offer	
Topics:	Deep Learning, Data-Driven Computing, Partial Differential Equations, Inverse Problems
PI in charge:	David Pardo in collaboration with Tecnalia
Salary and conditions:	<p>The gross annual salary of the Fellowship will be 28.000 - 32.000€.</p> <p>It will then be on your own responsibility to make your yearly income declaration at the Bizkaia Treasury Agency.</p> <p>There is a moving allowance for those researchers that come from a research institution outside the Basque Country up to EUR 2.000 gross.</p> <p><i>Free access to the Public Health System in Spain is provided to all employees.</i></p> <p><i>This contract will be funded by the IKUR-HPC-IA Strategy.</i></p>
Contract and offer:	12 months contract, with a possibility of renewal for 12 additional months based on performance and available funds. (12+12)
Deadline:	<p>29th November 2021 at 14:00 CET (UTC+1) 13th December 2021 at 14:00 CET (UTC+1)</p>
How to apply:	Applications must be submitted on-line at: http://www.bcamath.org/en/research/job

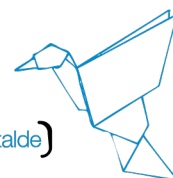

Scientific Profile Requested	
Requirements:	<ul style="list-style-type: none"> Promising young researchers. Applicants must have their PhD completed before the contract starts.
Skills and track-record:	<ul style="list-style-type: none"> Good interpersonal skills. A proven track record in quality research, as evidenced by research publications in top scientific journals and conferences. Demonstrated ability to work independently and as part of a collaborative research team.

	<ul style="list-style-type: none"> • Ability to present and publish research outcomes in spoken (talks) and written (papers) form. • Ability to effectively communicate and present research ideas to researchers and stakeholders with different backgrounds. • Fluency in spoken and written English.
Scientific Profile:	<p>The preferred candidate will have:</p> <ul style="list-style-type: none"> • Strong background in the numerical solution of Partial Differential Equations and/or Deep Learning techniques. • Background in Inverse Problems. • Good programming skills in Python and preferably, also Tensorflow. • Interest and disposition to work in interdisciplinary groups.

Application and Selection Process

Formal Requirements:	<p>The selected candidate must have applied before the application deadline online at the webpage http://www.bcamath.org/en/research/job</p> <p>The candidates that do not fulfil the mandatory requirements will not be evaluated with respect to their scientific profile. Additional documents could be requested during the evaluation process so as to check this fulfilment.</p>
Application:	<p>Required documents:</p> <ul style="list-style-type: none"> ▪ CV ▪ Letter of interest ▪ 2 recommendation letters ▪ Statement of past and proposed future research (2-3 pages)
Evaluation:	<p>Based on the provided application documents of each candidate, the evaluation committee will evaluate qualitatively: the adaption of the previous training and career to the profile offered, the recommendation letters, the main results achieved (papers, proceedings, etc.), the statement of past and proposed future research and other</p>

merits; taking in account the alignment of these items to the topic offered.

Incorporation: As early as possible
