1. INTRODUCTION

Aiming to strengthen the Basque Science and Technology System, BCAM was created in **September 2008** by the Basque Government through Ikerbasque, the Basque Foundation for Science. The University of the Basque Country UPV/EHU, Innobasque (Basque Innovation Agency) joined BCAM as founding members and the Biscay Regional Government joined later as institutional member.

BCAM is part of the BERC (Basque Excellence Research Centres) network. Located in the Basque Country, it benefits from a long industrial tradition, and is linked with the French Atlantic corridor, a region of excellence tradition in Applied Mathematics. This context facilitates the task of building an excellence research center.

Starting in **2008** with 3 Professors and 1 Research Line and, up to now, with 55 Researchers (Professors, Post-doc fellows and PhD Students), a high number of visiting fellows and internships, supported by a Staff team (7 members), integrating people from more than 21 different countries, the Center has accomplished a long and intense path, full of high quality scientific activities and hard work. BCAM is a young center where the average age of researchers is lower than 35.

In **2014**, BCAM has achieved its major collective goal in a competitive call: the accreditation as a **Severo Ochoa Research center** in which BCAM, Ikerbasque and UPV/EHU researchers linked to BCAM have participated. The aim of this accreditation is to strengthen BCAM research capabilities and international scientific leadership, providing funding during the period 2014-2017, what his implying that BCAM research staff is growing quickly, in fact, BCAM research staff has increased 30% in the last year.

2. HRS4R STRATEGY

The BCAM Strategy for attracting talented researchers was established back in 2008 and reflects the commitment for excellence, openness, flexibility, pan-European focus, ethical awareness and ethical and human values. BCAM signed the "Declaration of Commitment to the Principles of the European Charter of Researchers and Code of Conduct for the Recruitment of Researchers" in 2008. We have developed and deployed in 2015 the internal gap analysis that has led us to the definition of this action plan.

3. ACTION PLAN

Based on the gap analysis and additional focus groups, we have developed the HR improvement roadmap and actions that are the following:
